Missouri Career Center in Arnold to Relocate

The Missouri Career Center in Arnold will move to a new location next week. The new site will house additional partner agencies, giving customers access to a wider variety of services.

The Career Center, currently located at 3616 Richardson Square Way, will be closed June 24 - 27 while the staff and office contents are moved to the new location. The office will reopen Friday, June 28, at its new location at 3675 West Outer Road. The new telephone number will be 636/287-8909.

Missouri Career Centers are one-stop employment and training centers that offer the services of a number of state and local agencies and organizations. The Missouri Division of Workforce Development (DWD) helps businesses find qualified workers and helps job seekers find the employment and training services they need to obtain quality jobs.

Rick Beasley, acting director of the Missouri Division of Workforce Development, pointed out that Missouri Career Centers are located across the state, with a number of locations in the greater St. Louis area.

"Missouri Career Centers offer a variety of quality employment and training services to businesses and job seekers. We look forward to continuing to serve Arnold area businesses and job seekers at the new location," Beasley said.

Beasley also pointed out that many of the services provided by DWD, which is a division of the Missouri Department of Economic Development, are also available on the Internet at Missouri WORKS! at www.greathires.org. These services allow businesses to find qualified applicants, review resumes, post their job openings and obtain workforce data. Job seekers may submit a resume to post on the Internet, may view existing posted job openings, and review career-planning information. There are currently over 15,000 job openings posted on the greathires.org site with over 215,000 posted resumes.

All services by the Missouri Division of Workforce Development are provided at Missouri Career Centers and at the www.greathires.org web site are provided at no cost.
